

Contacts & Resources

While many topics related to hazardous waste and the Superfund Program are discussed and explained in the Haz-Ed materials and in the suggestions for further reading, you may have questions that are not addressed, or need additional resources to support classroom activities. The following list of contacts and resources may help you answer these questions and locate supplemental resources.

EPA Regional Superfund Community Involvement Coordinators

EPA's Community Involvement Coordinators can provide you with information on local Superfund sites, the location of the administrative records for local Superfund sites, date and location of local public meetings, and ways in which a citizen can file a petition to have a potentially contaminated site investigated. Each EPA Region has a coordinator:

Region 1 (617) 565-3425

Region 6 (214) 665-6617

Region 2 (212) 637-3675

Region 7 (913) 551-7003

Region 3 (215) 597-9905

Region 8 (303) 312-6600

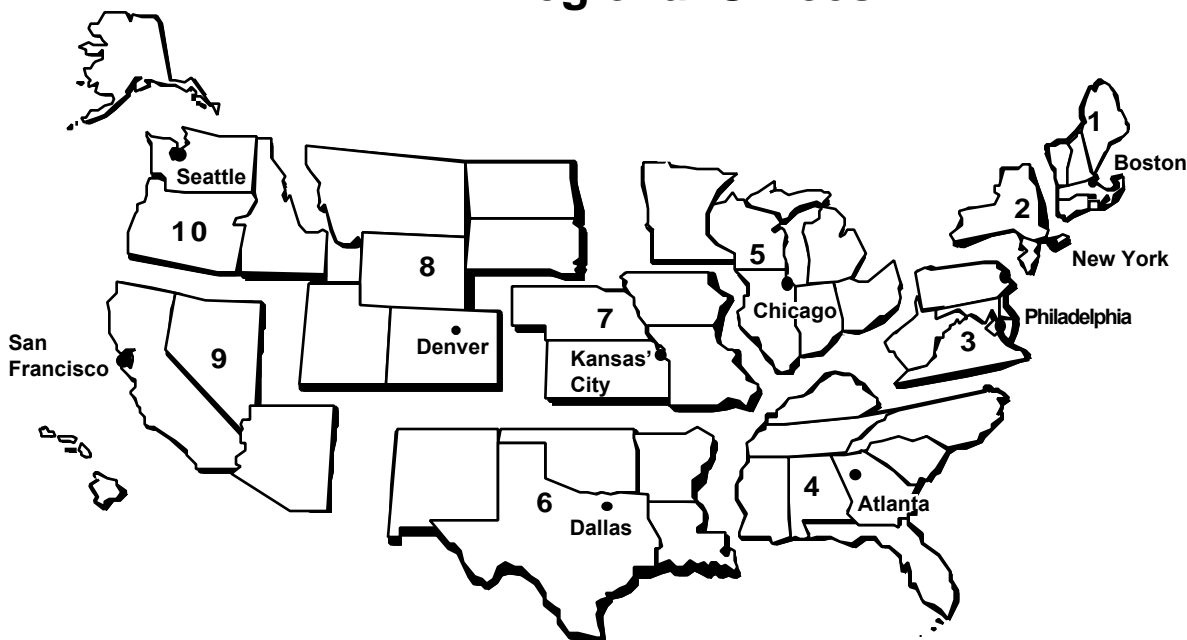

Region 4 (404) 347-3555 x6264

Region 9 (415) 744-2175

Region 5 (312) 886-6685

Region 10 (206) 553-1272

EPA Regional Offices

State Hazardous Waste Offices

Your state's hazardous waste office can give you information about hazardous waste management programs in your community.

RCRA/UST, Superfund, and EPCRA Hotline

This free hotline can provide both teachers and students with information about EPA's programs under RCRA, EPCRA, and Superfund. Hotline staff can answer specific questions about Superfund sites and EPA's cleanup requirements; order documents related to RCRA, UST, EPCRA, and Superfund; and refer callers to appropriate numbers for questions related to other program areas. Call **(800) 424-9346 between 9:00 am and 6:00 pm.**

National Technical Information Service (NTIS)

NTIS provides many of the documents published by EPA for public purchase. To receive a free catalog of available documents, call and request the Compendium of Superfund Program Publications (PR-980). Call **(703) 487-4650**, fax **(703) 321-8547**, or write **National Technical Information Service, Springfield, VA 22161.**

EnviroScape Educational Table Model

This model of different types of geological systems offers children of all ages an interactive educational experience as they learn about water pollution's effects on the environment. Models cost between \$199 and \$829 and take 4 to 6 weeks for delivery. To receive a brochure or order a model, call EnviroScape at **(703) 519-2180.**

Educational Videos

The Environmental Response Center offers numerous free educational videos that cover a wide variety of topics related to hazardous waste management and the Superfund Program. For more information about the videos or to place an order, call **(800) 999-6990.**

Internet Sites

The Internet is a good source of easy-to-access information concerning the Superfund Program and issues related to hazardous waste sites. The following Internet sites relate to topics discussed in Haz-Ed, and can be accessed using their World Wide Web addresses.

Consumer Recycling Guide

<http://www.best.com/~dillon/recycle/>

Provides extensive information on recycling-related topics and lists local recycling sites in the United States.

EPA Homepage

<http://www.epa.gov>

Presents EPA information available through the Internet. Documents available for downloading include press releases, speeches, fact sheets, new regulations, and other materials.

EcoNet's Environmental Education Directory

<http://www.igc.apc.org/igc/www.enved.html>

Contains links to dozens of environmental education sites, covering a wide variety of topics.

Grand Challenges in Groundwater Remediation

<http://www.isc.tamu.edu/PICS/PICS.html>

Features dramatic graphic display of groundwater contamination.

Links to State Homepages

<http://www.globalcomputing.com/states.html>

Contains links to each state homepage which provides access to state government departments or agencies that run environmental programs.
